Weeks	Lesson	Topic
Week 1	Lesson 1	HTML and how browsers display it. IDE basics and configuration. Web application structure. What does frontend and backend, difference
	Lesson 2	Http based application. HTML and CSS basic. HTML semantics, browser integrated developer tools
Week 2	Lesson 3	How CSS select styles
WOOK 2	Lesson 4	BG attachment & intro to text styles, css units, box modelling, box shawod & css border.
Week 3	Lesson 5	Opacity, dimensions, z-index, overflow.
Week 3	Lesson 6	Position, text & intro to font, font-face & icons.
Week 4	Lesson 7	Intro to grid system, positing , css pseudo class.
Week 4	Lesson 8	Selectors, media queryy, grid system contiunes.
Week 5	Lesson 9	Intro to flexBox, animations.
Week 3	Lesson 10	Gradient word-wrap, animation, transition, transform
Week 6	Lesson 11	Intro to bootstrap
vveek o	Lesson 12	Sass intro and practies (only sass)
Week 7	Lesson 13	Fundamentals(Variable, DataTypes), loops(if, switch statements)
vveek /	Lesson 14	Js Arrays. String (Methods), Number(methods)
Week 8	Lesson 15	Javascript Objects, Classes
vveek o	Lesson 16	Function Decleration, Expression.
Maria O	Lesson 17	Closures and Callbacks. Browser Events
Week 9	Lesson 18	DOM API, BOM
\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	Lesson 19	Attributes, forms.
Week 10	Lesson 20	Drag and drops.
\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	Lesson 21	FileList, FileReader
Week 11	Lesson 22	Localstorage, sessionstorage, cookie, Timing(setTimeOut, setInterval)
\Me=1: 40	Lesson 23	JSON
Week 12	Lesson 24	Debugging
111 1 10	Lesson 25	Asynchronous javascript. Async
Week 13	Lesson 26	Promise
101	Lesson 27	Fetch, Testing(Debugging).
Week 14	Lesson 28	Form JS Validation.
)A/ 1.4-	Lesson 29	Canvas API. Phaser Framework. JS Graphics Assessment
Week 15	Lesson 30	Testing, Jest
	-1	<u> </u>

	T	
Week 16	Lesson 31	Project Week
Week 10	Lesson 32	Project Week
Week 17	Lesson 33	Introduction to Github and Git. Repo initiliazition and add project to Github
Week 17	Lesson 34	Git commans for teamwork (merge, pull requests)
Week 18	Lesson 35	Git advanced commands
Week 10	Lesson 36	Webpack, npm logic and introduction to React, Virtual Dom
Week 19	Lesson 37	React JSX, Component Logic(Function and Class Components)
Week 19	Lesson 38	State and Props, Proptypes, Conditional Rendering, Keys and Lists
Week 20	Lesson 39	Components LifeCycle Methods, Handling Events
Week 20	Lesson 40	Higher-Order components, Lifting State Up, Fragments
Week 21	Lesson 41	State management, Context, Difference between props and context api
VVEER 2 I	Lesson 42	Difference between Class and Functional Components. Introduction to Hooks, useState, useEffect and useLayoutEffect
Week 22	Lesson 43	useReducer, useMemo, useCallBack
VVGGR 22	Lesson 44	useRef and additional hooks
Week 23	Lesson 45	Introduction state management frameworks, introduction redux
Week 25	Lesson 46	Context API
Week 24	Lesson 47	Advanced Redux
VVEEK 24	Lesson 48	Introduction Css Frameworks on the react (sass in react or style component)
Week 25	Lesson 49	Advanced Sass
Week 25	Lesson 50	Introduction Tailwind or bootstrap on the react
Week 26	Lesson 51	MUI and information about other component libraries
vveek 26	Lesson 52	Introduction Basic Algorithmns
Week 27	Lesson 53	Sorting Algorithms
vveek 27	Lesson 54
